

Teacher Program Overview & Schedule

Getting Smart About Sharks – All Years (F-12)

Program Duration: 1 Hour

Location: Shark Bay

Minimum Participants: 10 Students

Maximum Participants: 100 Students

Program Overview:

During this interactive program, students of all ages will learn about the amazing biology and ecology of sharks. Students will discover the variety of marine habitat where sharks live, what roles they occupy in their habitats and how they are equipped to survive in their environment. Specific adaptations covered will address how sharks move, hunt, protect themselves, rest and breathe. Students will consider how some human activities are threatening the survival of sharks and will discuss action that can be taken individually and globally to help with conservation of these animals.

This program had been developed to cater for mixed year level groups, providing a general overview on marine conservation and information on marine species.

Additional Information:

This program is not specially curriculum aligned and is suitable for mixed year levels or groups visiting from various subject areas.

Program Schedule

Time

9:15am Arrival

The school will arrive promptly at 9:15am and will be met by a Marine Education Officer on the lawn next to the flag poles out the front of Sea World.

9:20am Park Entry

The Marine Education Officer will lead the school group through the admissions gate to Shark Bay for the Education Program.

9:30am Education Program Commences

10:30am Program Conclusion

At the conclusion of this session, students will be free to enjoy the park for the rest of the day, at the discretion of school staff.
